## **Course Overview**

*This Planning/Management level course extends beyond the process taught in the current Threat and Risk Assessment Course and provides the jurisdiction with skills to develop an action plan to reduce/mitigate identified vulnerabilities of critical infrastructure, facilities, systems, and special events sites. There is a strong emphasis on security engineering concepts, building systems, and security systems. Participants should be key response managers within a local jurisdiction who are required to prevent, mitigate, manage, and/or resolve a WMD/terrorism incident. The course delivery methodology consists of lectures, small group discussions, multimedia scenarios, and inspections of facilities and infrastructures selected by the jurisdiction. Participant learning occurs in multidisciplinary teams. This course is funded by Office for Domestic Preparedness (ODP) of the Department of Homeland Security (DHS) and it follows well-tested and recognized industry standards for reducing vulnerability.*

## **Intended Audience**

*Emergency response supervisors, managers, and staff from the following disciplines/services*

- *Law Enforcement*
- *Fire*
- *Emergency Medical Services (EMS)*
- *Hazardous Materials (Hazmat)*
- *Public Health*
- *Public Works Emergency Management*
- *Private health*
- *Emergency communications*
- *Governmental administrative*
- *Private Sector and military (if invited by host jurisdiction)*

*Participants should work in one of the above disciplines/services, possess a working knowledge of the jurisdiction's Emergency Operations Plan (EOP) and Terrorism Incident Annex (TIA) to the EOP, and have completed a WMD/terrorism incident awareness course, or be approved by the local jurisdiction host. NERRTC, in cooperation with the DHS Office for Domestic Preparedness (ODP), offers a WMD/Terrorism Awareness for Emergency Responders Course via the Internet at <http://www.teexwmdcampus.com>.*
